Subject: RE: Building C - Confirmation sample results and map
Date: Wednesday, April 01, 2015 3:20:00 PM

Mike-

I was supposed to have received a revised schedule for the rest of the IRM activities at the site by March 30th. I understand you are waiting for confirmation samples to determine whether additional excavation is necessary. When can I expect to see the schedule?

Thanks.

Subject: Building C - Confirmation sample results and map

Hello Chris,

I will be sending you several things today of which the attached are the first. Attached please find a map and table for the Building C confirmation soil sample results. Please consider these draft as we are still working a few bugs out, but I know you expect to see these today so I want to get you started. I will transmit separate emails with maps and tables for the other areas as the day progresses.

Because there are so many sample locations to depict, we have created several zoomed in maps in hopes of making it easier to discern sample locations and IDs.

The data for the area south of the water line is not included in the tables, but was sent to you last week in a figure. We haven't yet processed that data through our database but it will appear in the IRM completion report of course.
